SUBSCRIPTION \$2.00 PER YEAR

LOCAL NEWS ITEMS CRAIGANTLER AND DISTRICT

The moisture for June in this area is said to have been five and three quarter inches. That is a good natural irrigating.

Chartland's Handy Corner has been a very busy place during the past week.

Mr. and Mrs. Raymond Green and Johnny Grant were all operated on last week in Calgary. All are progressing favorably.

Mr. and Mrs. Roy Shew were Sunday visitors in the district and took in Gleichen for an hour or two.

The irrigating of wheat after the moisture that has fallen during the past couple of weeks would be risky many farmers have a lot of ditch run.

Rodney Shew is following up the Trainer Dance Orchestra. He has a lot of places booked for the or orchestra during the balance of the month.

OBITUARY

FREDERICK SAMUEL GERVAIS

A resident of the Cluny district for the past 22 years, Frederick Samuel Gervais died suddenly Sunday morning from heart failure. Mr. Gervais was born in Quebec in 1861 and in 1887 with his family moved to Ouelletville north east of Cluny where he bought a farm and laid resided there ever since.

Deceased is survived by his wife, four daughters and four sons: Mrs. Fred Courtney, Black Diamond, B.C.; L. Long, Missouri, USA; Mrs. Dave Desjardine, Cluny; and Hazel at home; Clarence lives north of Gleichen; Henry, Black Diamond; Earnie and Alex at home.

Despite his age Mr. Gervais was a very active man. He took a great interest in community life and any thing that was of benefit to the district in which he lived. Kindly and thoughtful of others he had a kind word for all. He was a man of gentle impulses and never forgot the hospitable ways of the pioneer. Th stranger, even though a beggar, never failed to find food and shelter if he sought it at his hands, he was at home by the bedside of the sick and delighted in all kinds of neighborly offices. He had borne adversity bravely and enjoyed prosperity quietly. He had filled the various relations of life, as son, husband, father, friend and filled them well. Who can do more?

The funeral took place Tuesday morning at 10 o'clock and was largely attended. Mass being said in St. Victor's Church, after which interment was made in the Catholic cemetery. The pall-bearers were Messrs. P.J. Miller, Geo. Desjardine, Crest, Herman, Rogeau and Sampson.

THE WORLD OF WHEAT

By H. G. L. STRANGE
Director, Research Department
Beagle Grain Company, Limited

The manner by which temporary help is to be given for this year to western farmers has now been established by the Dominion government. The assistance is appreciated, and it will do much to tide the west over for another year.

No bonus or assistance given by the Dominion Government will ever sell abroad one extra bushel of wheat. So now the real important problem has to be faced, i.e. how to sell our total average annual wheat produced for export which will mean the sale of about 100 million bushels each year more than the world is now purchasing.

There are millions of people in the world today who are sadly in need of these extra 100 million bushels of Canadian wheat, and who are willing in turn to pay for this additional food with their own manufactured goods. But the Canadian and other high tariff and other restrictions set up, which now strangle international trade, prevent these healthy exchange from taking place. Only the removal of these harmful restrictions to international trade will, believe

Brig.-Gen. Pearkes And Staff Will Inspect Battery Wednesday

Brigadier G. R. Pearkes, V.C., D.S.O., M.C., officer commanding Military District No 13 and staff will inspect the 22nd Field Battery on Wednesday, June 28th at 8.00 p.m. If the weather is favorable the inspection will be carried out in the field east of the police barracks. Parents of members and all others interested are invited to be in attendance. Members of the Canadian Legion will be on hand to handle the crowd and assist in parking cars. The general public are requested to co-operate with them to ensure that there is no interference with the work of the Battery.

olve this important problem. This matter, I courteously suggest, should now be started earnestly by all western farmers, and by all those who are the farmer's true friends.

Many farmers, in order to improve their crops, have wisely sown some registered and certified seed. To obtain best results a field seeded with this high class material should have in alleyways of three feet or more wide, kept clear around it, so that there is no chance of the good material becoming mixed with adjoining lower quality crops.

Gophers, field mice and birds carry seeds of other varieties into even the best fields; therefore as soon as the plants have headed out, the farmer should walk through his seed field and should pull up, by the roots, any plants that are obviously not his own. This is an operation that does not pay.

Some may desire to have their field inspected next fall so that they can take the seed in carrels or sealed in the sack as registered or certified. This is the intention then farmer with registered seed must communicate with July 1st with Mr. W. T. Wiener, secretary of the Canadian Seed Growers' Association, at Ottawa, and those with certified seed should write to District Supervisor of Production Services-Plant Products at Winnipeg or Saskatoon, or Calgary, for each of the respective provinces. These gentlemen will then inform the farmer about the next steps to be taken.

CALGARY EXHIBITION JULY 10-15

Arrangements are progressing very satisfactorily for the 54th Calgary Exhibition and Stampede, to be held July 10th to 15th. There is every indication that there will be a large entry in the several department of the Exhibition. New stable accommodation for 198 horses is being provided with the hope that adequate stable accommodation will be available for this year's entries. Included in this accommodation is 96 boxes for race horses, a large number of race horses had to be given temporary accommodation.

The opening feature, the Stampede parade, will be more than ordinary spectacular this year as there is to be a "Pageant of Empire," in which there will be fourteen floats, each representing a different part of the Empire—India, British West Indies, Newfoundland, Scotland, Canada, Hong Kong, Egypt, South Africa, England, Gibraltar, Ireland, Wales, Australia, New Zealand and the British Empire. Many other floats will be sponsored by individual firms. The live stock section which was inaugurated last year, will be improved and will give the thousands who see the parade an indication of the high quality live stock produced in Alberta.

There will be seven days of running races commencing the Saturday prior to Exhibition week.

The Stampede will again draw contestants and patrons from all over the North American continent and Mr. J. B. Cross, chairman of the Stampede commission, can assure patrons that the Calgary Stampede

Edgadier Pearkes will take the General Salute while Trumpeter Boy E. Evans sounds the "General Salute." This will be followed by a march past. There will then be a demonstration of artillery work in the field. All members of the unit will take part in this demonstration which shows how the firing of an artillery battery is controlled from an observation post some distance away.

Major R. Dodson, M.M., officer commanding the local unit states that a full turn out for this parade is expected, and that there will be five officers and forty-five men taking part.

will again live up to its reputation of being one of Canada's most thrilling portraits of western sport. The final prize in the chuck-wagon race have been increased.

An outstanding program has been arranged for the grandstand parade each evening and the Friday morning live stock review will again be featured for young people and their parents.

The exhibition annual puts on the best fireworks program to be seen anywhere in the province. For the policy of last year there will be magnificent fire works programs on Monday and Saturday evenings. The coronation ball will take place Friday evening at 9th Ave. and on Tuesday and Wednesday and Thursday mornings up to the exhibition grounds will be featured.

Patrons, numbering 228,425, attended the last exhibition and stampede, and President J. Chas. Yale expects it will be possible to surpass this in 1939. This will be known as British Empire year in honor of the Canadian visit of their Majesties. Special passenger rates will be in force on railways and bus lines, and room reservations may be made at Calgary hotels or at the accommodation booth at the entrance to the Exhibition. Reserved seat reservations may also be made in advance at the Exhibition office.

GIMBEL-GRANT

Wednesday, June 7th, at 4 o'clock, Wesley United Church was the scene of a pretty wedding when Jessie Frances, youngest daughter of Mr. and Mrs. John A. Grant of Gleichen, became the bride of Mr. Gordon Gilbert Gimbel of Royalton, Rev. D. H. Telfer performed the ceremony before the communion table banked with palms, ferns and flowers. The bride entered the church on the arm of her father. She was gowning in an old fashioned dress made in net over crepe with a jacket of embroidered net. Her embroidered tulle veil was caught into a bouquet of Madam Butterfly roses. A cameo pendant, the gift of the bridegroom was her only ornament.

Miss Frances Grant niece of the bride made a dainty little flower girl in floor length gown of pale orange and carried a basket of roses, carnations and sweet peas and a wreath of roses and sweet peas in her hair. Miss Mildred Gimbel, sister of the bridegroom, was bridesmaid and wore a floor-length gown of mauve tulle over a net dress. She carried a bouquet of pink carnations and mauve sweet peas and wore a wreath of sweethearts' roses and mauve sweet peas in her hair.

Mr. Douglas Grant attended the bridegroom, and Mr. Edward Collier the bridesmaid. After the ceremony the signing of the register, Mr. Ralph Peacock sang O. Beloved Heaven, Mr. McColbert played the wedding music. After the ceremony a reception was held at the Avenue Grill for thirty relatives and close friends. The wedding was beautifully decorated with flowers and streamers and with a three-tiered wedding cake. Mrs. Grant, mother of the bride chose for her daughter's wedding a

BATTERY AND MEADOWBROOK TIE IN LEAGUE LEAD

The following is the standing in the local soft ball league after last week's play:

	P	W	L	Pct
Meadowbrook	4	3	1	6
Battery	4	3	1	6
Gleichen	1	1	2	3
Namaka	0	0	0	0
U.F.A.	4	0	4	0

Last week's results:
Meadowbrook 17; U. F. A. 0.
Battery 16; Gleichen 4.
Meadowbrook 13; U. F. A. 7.
Battery beat U. F. A.

The following is schedule for next two weeks:
June 22nd—U. F. A. and Gleichen
Friday June 16 game
June 25—Meadowbrook vs. Battery
and U. F. A. vs. Namaka.
June 27—Gleichen and Battery.
Friday June 24th game.
June 29—Gleichen and U.F.A.
June 30—Namaka and Battery.
June 30—Meadowbrook and Gleichen.

very blue sheer made made over printed silk. Her accessories were white and she wore a shoulder corsage of deep pink roses. The bridegroom's mother chose a white dress in lilac tone with white accessories and also wore a corsage of pale pink roses.

Mr. and Mrs. Gimbel left on a motor trip to the mountains and other points for travelling the bride wore a suit in sage green shade with a matching coat and with them wore white accessories. On their return Mr. and Mrs. Gimbel will reside at Royalton, Alberta.

UNITED CHURCH

Rev. J. N. Wilkinson, minister.
Mr. H. Birch, choir leader.
Miss Macleod, pianist.
11 a.m. Church School.

7:30 p.m. Divine worship. At this service the Sacrament of the Lord's Supper will be administered. To this communion service are invited all Christians of whatever name who love the Lord Jesus and are seeking to do His will.

Our Royal visitors have shown us a good example in that amid all their engagements and need for rest they found time for worship on each Lord's Day they were among us.

THE WEEK IN EDMONTON

(By Special Correspondent)

Alberta's oil mission to London was successful in presenting authentic information regarding the oil industry to Admiralty and Royal Air Force officials, according to Hon. N. E. Tanner, who headed the mission. With the Alberta minister were Dr. G. S. Hume, of the Dominion Geological Survey, W. F. Knode, chairman of the Alberta gas and oil conservation board and W. S. Campbell, former head of the Alberta petroleum producers' association.

British officials were agreed that Alberta's present and future production would justify the building of a pipeline, the minister stated. "There would be sufficient crude oil under production in the province by the time the line was built even if the oil development were to start immediately."

Feeling among the officials interviewed was that the line should run to the head of the river rather than to the Pacific coast. This would provide an outlet where the greater part of Canada might be served while making a contribution to Empire interests. "We were well received in London. Great interest was shown in the oil development carried out in Alberta," Mr. Tanner said.

Another Alberta product came into its own during the past week when it was decided to use Alberta salt to stabilize the Edmonton-St. Albert road. Owing to the favorable moisture conditions, it is anticipated that the salt surfacing will prove successful. In the dry weather there has been trouble, results were not so good. At Edmonton airport, however, the runways are surfaced with salt, and great success has been re-

The Royal Visit

An historic event, which may be expected to leave in its train a lasting and beneficial influence on the course of events in the Dominion, is the recent visit to Canada of Their Majesties, King George and Queen Elizabeth.

The occasion, as doubtless nearly everybody knows, marks the first appearance of all time in this country of the young monarch, and this in itself is indicative of the growing importance of the Dominion of Canada as a nation and as an entity within the Empire.

Their Majesties' tour across the country was nothing less than a triumphal progress. To those who have always been led to believe that Canadians are an undemonstrative and phlegmatic people, the warmth of the reception accorded the King and Queen by their loyal subjects on this side of the Atlantic was a surprise and occasioned amazement to British domiciled in the Motherland.

Nor was the acclaim with which Their Majesties were received confined to Canadians of British birth. On the contrary, it was during the progress of the Royal tour, that naturalized Canadians vividly remembered the British birth in the warmth of their demonstrations and the heartiness of their welcome to their sovereign liege and his beautiful consort.

Touching The Hearts

His Majesty's kindly demeanor combined with his human outlook and attitude inspired respect and high regard on the part of all who had the opportunity to meet him personally and of that much larger multitude who of necessity, had to be content with little more than a fleeting glance and of reading about his actions and attitude during his visit.

As for Queen Elizabeth, it is no exaggeration to say that her beauty, her consideration for others and her many gracious gestures and kindly actions, coupled with an unassuming manner which did not detract one iota from her high rank, took the country by storm. Canadians immediately took her to their hearts and she left an impression which will long be remembered.

One of the beneficial effects which may be expected from this happy event is a tightening of those ties, loose though strong, which bind Canada to the Motherland and the sister units of the Empire. Had there been any thoughts in the minds of other rulers who harbor the wish as father to the thought that these ties are disintegrating, they must be thoroughly disillusioned by now.

It is also natural to assume that the visit of the King and Queen of Canada to their overseas realm will result in closer unity between the constituent parts of this Dominion, and that is a result which is devoutly to be desired if this country is to assume and maintain the rank in the world of nations to which she is entitled by virtue of her great expense, the richness of her resources and the courage, initiative and vigor of her people. There should be no important divergence between any two or more of the nine provinces whose people demonstrated in such forthright manner their loyalty, admiration and affection for the occupant of the Throne and his queen.

Undoubtedly, too, the opportunity afforded by the Royal visit to the Canadian people to become better acquainted with the King and the Queen will go a long way towards dispelling any desire which may have been some headway among a minority to espouse some of the various "isms" which have for their objective the overthrow of democratic rule. The enthusiasm which the presence of Their Majesties engendered in the hearts and minds of the people of this country can only be translated as a fervent desire to maintain here that form of government of which King George and Queen Elizabeth are the symbolic heads.

Cementing A Friendship

The decision, also, to extend the visit of the rulers of the Empire to Canada's friendly neighbor to the south, proved to be a most happy plan. The welcome accorded them in the United States, in that country is ample evidence of the cordial relations existing between the two great democracies and the visit should do much to cement and augment a kindly feeling and co-operative spirit between the peoples of Great Britain and the United States and Canada, and the United States respectively.

Their Majesties had not set foot on Canadian soil very long before their presence made itself felt in improved business conditions. The very fact that they made the trip across the Atlantic was evidence that the international situation was not as dangerous as some feared and believed. The evidence inspired confidence, and confidence was all that was needed to speed up the wheels of industry and that in its turn, should go far towards solving some of the country's major problems.

It may well be that the visit of King George and Queen Elizabeth to Canada was destined to mark the turning point in the economic warfare of the country.

Long live King George VI. and his beautiful and gracious consort, Queen Elizabeth.

Orders New Plane

Reichsfuehrer Hitler has placed an order for a new airplane with plans enough for a conference room and sufficient range to fly non-stop from Berlin to New York. The seaplane is a four-engine, low wing, tandem machine of a type known as "Condor FW 200." It has an average speed of 220 miles an hour and a cruising range of 5,600 miles.

The Bible has been republished more than any other book in the world, and early printers inaugurated his career by running off a few copies of the Bible, as if to insure success in his future publications.

Volcanic bombs vary in size from that of a baseball to huge masses as feet in diameter, and they may be spherical or pear-shaped. The surface may be smooth or covered with fissures.

Round-The-World Air Cruise

Tickets for "round-the-world tours by air" will be offered by United Airlines when trans-Atlantic air service of Pan American Airways begins this summer. It has been announced. The 17,000-mile trip will take 14 days and cost \$1,785, which is a rate of 10¢ cents a mile.

A bullet can be photographed in flight by new, high-speed, photographic methods.

Britain's State Motor Cars

Drawings in Detail Submitted To The King For Approval

Britain's State motor cars are the most carefully planned. The King takes an active part in their design, chassis and coachwork drawings in great detail are always submitted to him. Frequently he makes practical suggestions, particularly for the inclusion of some item which may help the chauffeur. The King shows great consideration for the men who drive them. The Daimler state motor car has been fitted with an inside glass floor. This was the King's own suggestion in order to get as much light as possible into the car so that Their Majesties can be more clearly seen on State drives when the weather precludes the landaulet hood being lowered. The King has discontinued his father's practice of riding in special forward seats. These are now frequently occupied by the Princesses. In the new car, special raised cushions have been fitted to the foisting occasional seats for the benefit of the little Princesses. The car has the typical high roof, necessary to allow the King to wear tall military and other head-dresses on official occasions. All four of the State cars have a complete secretariat's office in the centre arm rest so that the King may write while motoring.

A Queen Specimen

Bermuda Government Aquarium Has Received A Lion Fish

Louis Mowbray, curator of the Bermuda government aquarium, is proud of his latest acquisition. It is a lion fish, a species which is not very impressive. It is "Pterois sp." Visitors to the aquarium, however, hear him call it a "lion fish" as he points out its many unusual features. "There isn't another one in captivity," Mowbray claims, while admitting that other branches of the species are contained in some collections. The local specimen was given him by the aquarium by Victor J. Jones, who obtained it in Hawaii from Christian Holmes, an amateur collector.

The fish is about eight inches long, with pale amber and brown striping and quill-like dorsal fins resembling a mane. Although much smaller than the King of Beasts, the "lion fish" is not much afraid to handle—for those dorsal spines contain tiny poison-filled sacs. Representing a species which has been thought extinct, it earned approval quite unearned when it went about making himself at home in his aquarium tank.

The Wisdom Of Turkey

Ministry Of Education Forbids Making Turkey For School Girls

Turkey has ruled that girls at schools and universities must not try to look like movie stars. The Ministry of Education of Istanbul has notified heads of schools that the girls must not have their hair waved, curled, dyed or otherwise deviated from the "natural".

The misses are also forbidden to use lipstick, powder, cream, or any other forms of makeup, and must not wear jewelry or silk stockings. Boys must have their hair neatly and closely cropped.

Rubber Life Rafts

U.S. Bombers Carry Them Fully Equipped For Emergency

Rubber life rafts capable of supporting 20 men have been adopted by the United States army air corps for its largest bombers. The rafts, which weigh about 11 pounds each, occupy only three cubic feet of space when folded. Equipped with flares, drinking water, repair kits and four coats, they sustain 10 persons and has life lines to support an equal number in the water.

The Easiest Way

In view of the prescribed distances at which photographers had to remain during the royal stops on the Western Ontario itinerary, it was suggested that the best way to obtain a picture of their Majesties and avoid the crowd was to buy a postage stamp.

When the boarder told the landlady that his steak was like a day in June—very rare—she replied that his bill was like a day in March—very unsettled.

The comorant population of the one Prussian island of China is estimated at 5,600,000 and this colony is only one of many among the islands of the Humboldt current.

Even if there was such a thing as anti-worry insurance, we would have to worry about paying the premiums.

Brussels, Belgium, has banned automobile horn blowing at any time.

England Was Her Birthplace

But Queen Elizabeth Claims Scotland As Her Native Land

It is generally assumed that Queen Elizabeth is Scotch. Her mother was a Scottish earl and her father was English. The principal family seat is Glamis Castle, in the county of Forfar, Scotland, but the Earl of Strathmore has another mansion at St. Paul's Waldenbury, Hertfordshire, England, and it was there that the future Queen was born. Legally, she is Scotch.

But her Majesty goes further than that. In her speech at the laying of the foundation stone of the Supreme Court building at Ottawa, she referred to Scotland as "my native land." When she spoke to a group of men from the Forfar county of Angus at Vancouver she referred to it as "my native county."

There is a story told of a Scotsman who was boasting about the number of eminent men who were born there. An Englishman said, "Surely none of them claim that Shakespeare was a Scot?" "No," replied the Scot, "but was good enough to be one."

Queen Elizabeth may not be a native of Scotland—but she is good enough to have been—St. Thomas Times-Journal.

Fastest Regular Train

Milwaukee Stream-Liner's Average Speed Is 74.6 Miles An Hour

The New York Times says the fastest regular start-to-stop steam train in the world is now made by the Morning Hathaway of the Milwaukee road, according to Eric Crickmay, railroad expert of Thomas Cook & Son. He reports that this new stream-liner sets the record with an average speed of 74.6 miles an hour in making the 78.3 miles from Sparta to Portage, Wis., in 63 minutes.

"Who are those people who are cheering?" asked the recruit as the soldiers marched to the train. "Those," replied the veteran, "are the people who are not going."

Strength Of Empire

Trend Is To Better The Condition Of The Masses

"I'll tell my Dad." It remained for Aid, Laidie, of Lethbridge, to furnish the best proof yet of Queen Elizabeth's democracy of spirit. Aid, Laidie knew her father in Scotland. When the Queen, met the Lethbridge alderman and he told her of his acquaintance with her father, she said, quite as casually as one Old Countryman to another, "I'll tell my Dad."

If there has been a tendency in democracies during the past quarter of a century to set up classes which show the extremes up in contrast—and we fear there has been—the humanness of King George and Queen Elizabeth shown during their Canadian tour should do much to cure it. The British Empire will continue strong as long as the whole trend is to better the position of the masses, and that betterment will come about the sooner if there is a sympathetic understanding of democratic principles by those in high places—Lethbridge Herald.

Revenue From Wolves

Considerable Source Of Wealth Derived From Wolf Pelt

Canada has a general unsuspected source of wealth in its wolf skins. Alive the wolf is a marauder, destroying sheep and poultry on Algonia farms, for example, and doing serious depredation among our game.

But dead, his pelt is a thing of value. Whether it be for a rug, a coat or other uses. And at times it provides a substantial export trade. In the fiscal year ending March 31, 1937, for instance, exports of wolf pelts were valued at \$665,018, and in the five years from 1934 to 1938 the total value of such exports was \$1,892,792, not very much short of two million dollars. — Sault Ste. Marie Star.

Opinion Of One Woman

Television Announcer Says Broadcasting Needs A Man's Voice

Jasmine Bligh, the taller of two girls who announce the British Broadcasting Corporation's television programs, took a bow when viewers voted they preferred women to men announcers. But, said she, they probably would not have voted so if they could not see her. "In television, I suppose, the public finds a woman announcer easier on the eyes, but there is something about non-visual broadcasting that seems to need a man's voice."

A New Silver Alloy

Silver steel, a new stainless alloy which resists sea water corrosion, was announced by the Chemical Foundation at New York. The new alloy is made by adding a small amount of silver, never more than two per cent, and frequently less than one, to the present stainless steels that contain chromium and nickel.

Excavations have revealed a Roman fort, believed to be the outpost of Hadrian's wall, near Dumfries, Scotland. The fort is 570 feet long, 500 feet wide, and is believed made to accommodate 500 horsemen.

Lipton's Full "Flavored" TEA "FIT FOR A KING"

Banks Are Protected

Any Money Stolen By Bandits Is Fully Insured

The Peterborough Examiner says: There has been now and then some argument regarding the loss suffered by a bank when it is robbed, some contending that the branch would have to look upon the loss as the same as one sustained in any other way, while others held that money was insured.

The Examiner made inquiry through the Canadian Press service at Toronto, and the reply was: "Chief inspector's office of Canadian Bank of Commerce reports universal practice in chartered banks in Canada is to have all funds insured, so no robbery is at the expense of the bank insured."

The money to pay for the insurance of funds would probably be assessed against the earnings of all branches. Banks have weapons and in nearly all cases there is training in how to use them, but banks do not encourage employees to start shooting it out with any invaders. The individual can use his own discretion regarding such a move, but the official view is that a man's life is worth more than the money which may be stolen.

Tourists Visit Britain

The United States sent 97,258 visitors to Great Britain during 1938, a White Paper announced. The Government statistics showed Germany second with 79,652 and France third with 68,183. Total of foreigners visiting in Britain, the statement said, was 248,672 as compared with 297,142 in 1937.

It has been estimated that there are 6,000 brands of tea in the world, and experts are able to tell them apart by the taste.

Atlanta, Ga., has 350 churches with more than 100,000 members representing 20 denominations.

trial relations during the past week. Under the terms of the order which recalls that made on September 24, 1937, the minimum of 33 1-3 cents an hour must be paid to male workers of 19 and over. Previously the 33 1-3 cents was applied only to those of 21

and over. For workers engaged for less than four hours, a rate of 40 cents must be paid for a minimum of four hours. Overtime rates are one and one-half times normal rates. Where board and lodging are furnished as part payment of wages, the amounts to be deducted from earnings at the prescribed rates are \$0 for a full week of 21 meals and 25

cents for a single meal; \$2 for seven days' lodging and 40 cents a day for less than a week's lodging. A general dropping of all age groups is ordered by the board. The object of the new order, it is said, is to protect youths in certain occupations who, while under 21, have been doing adult work without receiving adult's pay. Political doings in the Capital have

Town & District

Today is the longest day in the year and summer begins.

Miss W. Taylor, who is on the staff of the general hospital, Calgary, is home for her holidays.

Mr. and Mrs. C. Woods and Mr. and Mrs. T. Brown were scanned in royal fashion by a large number of their friends one evening last week.

MRS. BERTHA GENTHER

Hunter died early Sunday morning in a Calgary hospital. Funeral services were held in Calgary Tuesday afternoon at 3:30 o'clock. Mrs. Genther had spent several months in Gleichen, previous to her illness, and was known by many townspeople. Previous to her death she was confined to the hospital for many months. Her husband predeceased her several years ago.

Recommending that the institutional advertising appropriation be continued for still another year, the Canadian Life Insurance Officers Association paid a glowing tribute to the value of newspaper advertising. "It seems unnecessary to dwell upon the advantages that have accrued to the institution of life insurance in Canada from its years of continuous co-operative advertising," the annual meeting of the association was told by the committee in charge. "As institutional advertising and publicity has been an invaluable factor in establishing and maintaining public confidence, so its continuation seems to us imperative as a necessary medium to keep policy holders and the public generally informed concerning the nature of life insurance as a co-operative enterprise and to counteract extreme measures advocated in some quarters and directed against the best interest of our millions of policyholders and beneficiaries." Over the past year, forty million life insurance managers have appeared in daily, weekly newspapers and financial and farm publications. They have been devoted mainly to emphasizing the financial protection that permanent forms of life insurance provide for dependents and for old age and stressing the social and economic importance of life insurance to the individual end to the nation. These advertisements are sponsored co-operatively by a large group of life insurance companies whose business comprises more than 80 percent of total insurance in force in Canada.

CARD OF THANKS

We wish to thank all those who so generously and thoughtfully assisted and comforted us in our recent sad bereavement.

MRS. FRED GERVASIS and Children.

CHURCH ANNOUNCEMENT

We invite you to come and worship with us at the Mission Hall, alongside the Rexall Drug Store next Sunday evening, June 25th, commencing at 7:30. These services will continue from Sunday to Sunday as well as the Saturday evening. There will be no collections to embarrass anyone at any time. Everything free as salvation itself—Mission Workers.

Eggs should be gathered in a wire mesh basket, not in an old bucket or any old thing that comes handy when gathered they should be put in a cool place. In a cellar if possible and not packed in crates until cool. Cooling is particularly important, especially in helping to qualify the eggs for the Grade A class, commencing at 7:30. There is no circulation in an egg crate, consequently eggs placed at once in crates do not cool, and the longer the eggs stay warm in the crate the more likely they are to become poor grade. After a time the white in the uncooled egg tends to weaken, with the result that when the grader passes the egg in front of the light it places the egg in Grade B.

gone on the active list during the past week. Premier Aberhart announced the beginning of his annual summer tour for July 19, then postponed the opening for one week. In Unity circles, following this breakdown of negotiations with the liberal leaders, Mr. E. L. Grey, it was decided to leave the door open for further negotiations with a view to a future alliance. Meantime, the Unity movement entered the lists of political parties proper by drawing up an election platform.

Incidentally, all talk of an election appears to be based on rumor; too, there have been no official pronouncements, and the various dates mentioned as likely are merely the result of conjecture. Following protests by government officials and local bodies, the demon-

Vanishing Frontiers

NOT so many years ago Western Canada was being opened up by pushing the railroads further into the unorganized territories. The uncertainty of travel by primitive trail, corduroy road, by river, lake and stream gave way to the regular schedules of the railways. More recently the automobile has developed from the crude, uncertain "horseless carriage" to the modern streamline beauty of 1939, with all its power, comfort and speed. The flying machine marked a milestone in civilization—an achievement dreamed about by men of imagination for centuries. Today, aeroplanes span Canada. Giant ships cover the North.

With the development of fast freight, the automobile and regular air service, the "Mail Order Way" has become the fast way, the economical way to buy. Every transaction is given immediate attention, prompt service and is backed by the EATON guarantee—"Goods Satisfactory or Money Refunded." When the selection is large, the price low and the service quick, shopping by mail is a pleasure.

ion government has agreed to postpone for one year their decision to impose a rising fee of \$5 for non-residents and \$1 for residents in Alberta national parks. Tourists literature this year had stressed this fact that only a \$2 entrance fee was required of tourists entering the parks. Alberta fishing licenses cost residents \$1 non-residents \$2.25.
